⚠ Precautions for selection guide

Note 1. Designate port size of Port P/R in supply and exhaust block model No. on the manifold specification sheet.

Note 2. AC100V is not available for grommet lead wire specifications.

Note 3. For 3-position all ports closed and PAB connection, check valve specifications (H) are not available.

Note 4. Consult with CKD about vacuuming of external pilot (K).
